Dear Friend,

Thanks so much for taking the time to look at our profile and for considering us as you make this important decision. We are so grateful for the opportunity to tell you a little bit about ourselves, and we hope this will show you how much love we have for each other and for our families. We are so excited to extend our love to a new little one and grow our family.

Jim and I are a bit older, but have only been married for three years. This is a first marriage for both of us, and adoption will allow us to become parents for the first time, too. We have always been open to the idea of adoption, and after trying unsuccessfully to have kids of our own, we felt that God was guiding us along this path. We can't wait to meet the child that God has chosen for us!

We both work full time. Jim is a civil engineer and Stacey is a special education teacher. In our spare time, we love to go up north to our place on the lake. We will do just about anything outside; running, long bike rides, working around the house, and spending time on our boat is among our favorites. We see our families quite often and also enjoy spending time with our friends.

We can't imagine the journey you've been on, but just know that we already love and respect you for everything you are doing for your unborn baby. We pray that you have all the strength and courage you need and that you find the perfect family. Whoever you choose will be a great fit. Thank you for looking at our profile. Sincerely,

Stacey and Jim
