Hello!

Chris and I have been married for nearly 10 years and have been together for seventeen. Natalie comes from a large family of 8 siblings and Chris is from a family of 4 siblings. Together we have 24 nieces and nephews, so this baby will have so many new cousins to get to know if you decide we are the best fit for you!

We struggled with infertility for 4 years before we adopted our son, Bradan. He is 26 months old and is thriving in every way imaginable. We have always wanted more than one child. So we have been praying on that wish and once again, God has drawn us to adoption. We know this decision is hard for you and we are praying for guidance and peace in your decision. We will do everything in our power to raise the baby with love, care, honesty and humor.

Chris works full time, Natalie is a stay at home mom. We have a home in Alger Heights with many small children in the neighborhood. We love to travel and also have a fishing boat that is located on Lake Michigan. We love to cook and laugh together.

Chris loves sports. He enjoys hunting as well. He loves to teach people how to hunt and fish. He has coached baseball on the high school level as well as Little League. He loves spending time with his family and remains close with many friends. Natalie loves to read books and watch movies. She plays basketball as much as she can. She enjoys biking, running, baking and walking. She is in a book club and enjoys gardening.

We enjoy playing competitive sports together. We love to fish and hunt side-by-side. I think the proudest Chris has been of me was when I got my first deer with my bow. He was beaming. We enjoy spending time with our families. All but 2 of our siblings live in the Grand Rapids area. They have been a tremendous comfort for us throughout our journey to parenthood and will continue to support us through our next adoption. We have a strong family support system that is ready to help us take on this new gift from God. We pray for you and your baby every day thank you for considering us as adoptive parents.
